SCREENING FOR 3 AND 4 YEAR OLDS

The Grafton School District will conduct an early childhood screening for 3 and 4 year old children who are residents of the District and who are suspected of having significant delays in their development. For the child to participate in this screening, it must be suspected that he or she has developmental delays significant enough to be considered educationally handicapping. The purpose of the screening is to identify children who may benefit from an early educational intervention program for disabled children.

The screening, which lasts about an hour, is a brief series of tests to help determine which children have suspected exceptional education needs. Areas that will be screened are learning and thinking, speech and language, and motor development. Parents will also be asked to fill out a form about their child’s social and emotional growth.

The screening will be held at Grafton Elementary School on Friday morning, January 25, 2013. Please call the District Office at 376-5416 to set up an appointment or to answer any further questions you might have.

Martin Armato

Grafton, WI 53024-2198
School District of Grafton
Preschool Screening

Who? All children ages 3 and 4 who are residents of the Grafton School District and who may have significant delays in their development.

What? The purpose of this screening is to identify children who have suspected delays in the areas of: learning/thinking skills, speech and language, fine and gross motor development.

When? Several times per year. Next scheduled date: Friday, January 25, 2013.

Where? Grafton Elementary School (see address below)

Why? Children with significant developmental delays may benefit from an early educational intervention program. Early intervention can substantially influence a child’s abilities and developmental potential.

Please call Kay at the District Office at 262-376-5416 to set up an appointment for a screening or to answer any further questions you may have.
