

School District of Grafton

*Shared Commitment and a Standard of Excellence for
Every Student – Every Day*

July 2012

Welcome to the new school year. Please complete the form attached to this letter only if you wish to opt out of Internet use at school or to request that your child not be included in group photos on the district website.

Internet use by students

Students **will have access to the Internet** unless parents notify the District otherwise with the form attached to this letter. The School District of Grafton does use Internet content filtering to restrict adult/offensive material.

Group Pictures on Website

The District website may feature pictures of students working on projects, on field trips, or in after-school activities. **The District will assume that you have no objection to publishing on the District website generic, non-descript (no student names) school pictures such as class photos, field trips, concerts, events or extra curricular activities.** If you do not want your child's picture included in any of these photos, please indicate on the form attached to this letter.

Computer Use Policy and Internet Safety

While computers and the Internet have created unprecedented opportunities for accessing and sharing information for the purpose of learning, new opportunities also exist for child endangerment, plagiarism and copyright abuse. Please take time to review home Internet safety and the Computer Use Policy with your child or young adult. The policy can be found on the Home and School Technology page under the Parents menu on the District website. If you do not have Internet access and would like a copy of the policy, please call your school office.

If you have questions or concerns about this letter or any of the educational technology resources at the District, please contact me at 376-5427 or e-mail rseybold@grafton.k12.wi.us.

Thank you,

Rick Seybold
District Technology Coordinator
